LAKEKiT.NET

Web Hosting & Support

Our Mission...
To help Wisconsin lake organizations use technology to communicate effectively to their communities.

Who We Are...
A project of Wisconsin Lakes, we are a network of volunteers with professional web services support who work together to build and maintain websites for Wisconsin lake organizations.

Community – When you select Lakekit you are joining with a community of like-minded individuals who care about lakes! We are not a for-profit web site designer or service.

Access to Help – You will get access to a Lakekit volunteer trainer, training resources and a network of other users right here in Wisconsin.

It's Easy – With Lakekit, you'll have fewer administrative duties because it's based off a WordPress Multisite and many of the behind-the-scenes tasks are taken care of for you.

Special Resources – The fee includes initial online training from a Lakekit volunteer and a wealth of training materials on the Members Only page of the Lakekit website.

Example Sites – We provide examples of other Lakekit websites to help you with ideas on how to organize your content and make your site useful for visitors.

Fair Price – You get web hosting and more for a very competitive rate. The current fee is $125 per year, paid annually, for Wisconsin Lakes Organizational Members, and $175 per year for non-member lake organizations.

F A Q ' S

Do I get my own web site address?
Yes, each lake organization can use its own unique website address.

Do I need extensive web design knowledge to build and maintain a site?
No. With our help getting you started and the easy "WordPress Elementor" platform, you can learn to build and maintain your site without being a web designer or needing extensive technical knowledge. Elementor provides easy drag and drop tools!

Will Lakekit update my site content?
Updating your content is up to you, but we handle the routine background maintenance, including domain registrations and back-ups.

Is the domain registration included with hosting?
Yes, your site will be hosted on a secure server of our partner *SiteGround* and your domain registration is included in the low annual fee.

If I already have a website, can I move it to Lakekit?
If you currently have a website and want to move over to Lakekit, you can transfer your domain name to your new Lakekit site. You will have to build the pages again using the WordPress platform and our *Hello* theme.

Are special features, like PayPal available in Lakekit?
Yes! Many popular "plug-ins" are available to make your site useful and fun for your visitors. We do limit availability of some features to maintain network stability and reliability.

What Is the Annual Fee?
The current annual fee is $125 per year for Wisconsin Lakes Organizational Members, and $175 per year for non-member lake organizations.

How does the Lakekit training work?
Our annual fee includes an initial, one-on-one online training session with a Lakekit volunteer, plus a wealth of training materials and videos on our Member's Only page.

How do I get started?
If you are interested in learning more or getting started, please **CLICK HERE** or use the QR code and fill out and submit the interest form. A volunteer will contact you.
